"The home of the American Society of Mechanical Engineers, St. Louis Section"

www.asmestlouis.org

October 2017

ASME helps the global engineering community develop solutions to real world challenges. Founded in 1880 as the American Society of Mechanical Engineers, ASME is a not-for-profit professional organization that enables collaboration, knowledge sharing and skill development across all engineering disciplines, while promoting the vital role of the engineer in society. ASME codes and standards, publications, conferences, continuing education and professional development programs provide a foundation for advancing technical knowledge and a safer world.

Civil Life Brewing Company & Past Chair's Night

Come join us Wednesday, October 18th, for dinner and a tour of the Civil Life Brewing Company. Civil life has been in operation for over five years and is the winner of a gold medal at the Great American Beer Festival. Civil Life is truly a unique brewery and pub that has grown its operation steadily since it began. Civil life now produces draft beer for over 200 local restaurants and bars, cans beer on site, and does all of this while drawing 35-40% of its electricity from roof mounted solar panels.

The price for this event is \$10, which includes dinner and soft drinks. Beer and wine are not included, but are available for purchase at the bar (1/2 pints of all beers \$2.50). *Please note: Civil Life Brewery is a cash-only establishment! Credit cards are not accepted.*

Menu:

Appetizer assortment: Pretzels, Hummus and Pita, Spiced nuts
Sandwiches/Main Course: (Each Pick One)
Salad (Spinach Salad with Smoked Chicken or Vegetarian Option)
Smoked Chicken Salad Sandwich
Veggie Club Sandwich
Turkey Club Sandwich

Schedule:

6:00 – 7:00pm	Dinner
7:00 – 7:30pm	Brewery tour
7:30 – 9:00pm	Stay and try some beers if you like

RSVP: Please RSVP by Friday, October 13th, through [THIS LINK](#), or email Louis Woodhams at louis.woodhams@gmail.com. Be sure to include the number of attendees and any special dietary restrictions or preferences. At the request of Civil Life Brewing Company, this event will be limited to 24 persons.

Chair's Corner

Dear ASME St Louis members,

Allow me to share some of my first impressions and give you firsthand insights to the upcoming year. We had a great start of the year. Our first section meeting was a visit to CME, Central Mining Equipment Company, coordinated by AEG and their representative Stephanie Kline-Tissi. CME is a local family owned company and many would call it a first class citizen of our region. Many of the professionals there have been long time employees and proud of the company achievements, numerous unique developments and engineering patents in the mining industry. Big thank you to CME and AEG for giving us this opportunity.

The ASME section board is working to organize more visits of this nature. We are planning visits to a packaging supply manufacturer, the engineering firm Watlow and the Bissinger's chocolate factory in February.

In addition we are working to organize a networking event in December, the traditional Student design presentation in January and let us not forget our May social.

We are also considering ideas such as featuring regional Student chapters and Young Engineers in this newsletter and on our website. Our contribution to the region can be also expanded with a Volunteering event during the Spring of 2018.

Please give us a call or write us an email and share your comments and ideas.

Sincerely,

Mesrou K Mehmed
Chair of ASME St Louis

YEC Happy Hour

YEC HAPPY HOUR

SPONSORED BY:

WHERE: **Tapped**
7278 MANCHESTER RD
MAPLEWOOD, MO 63143

WHEN: **Thursday, December 7th, 2017**
(5:00 PM TO 7:00 PM)

- Come join us for an evening of fun and fellowship sponsored by American Society of Mechanical Engineers.
- Everyone will get two free beers!
- Happy hours are a great place to meet other young engineering professionals in the St. Louis Area.
- Bring a friend and they will get a YEC Koozie!

Tom Bever Memorial Undergraduate Scholarship

The St. Louis section will be accepting nominations for a \$500 undergraduate scholarship for the fall semester. In order to be considered, the student must submit the following by August 1st:

- Unofficial transcripts showing the student is an undergraduate pursuing a Bachelor's degree in Mechanical Engineering
- ASME student membership – include ASME membership number in submittal
- Submit a short essay describing outstanding accomplishments including volunteer roles in ASME (member of design team, officer positions held, etc.)

All materials should be entered on the www.asmestlouis.org website via the "Scholarship Application" link found on the main page. Selection will be based primarily on ASME volunteerism. Open to students attending a college in the St. Louis Section including: St. Louis University, Southern Illinois University Edwardsville, Missouri University of Science & Technology, Washington University, and University of Missouri in St. Louis.

ASME Auxiliary Scholarship Program

From Arnie Feldman, Chair EED to all EED Members:

You are likely familiar with the scholarship programs that in the past were sponsored and administered by ASME. The ASME Auxiliary currently sponsors a Student Loan Program (SLP). The terms and conditions for the SLP have recently been revised to make these loans more widely available to students in need of financial assistance to complete their degree requirements. Loan repayment terms have been revised to make it easier for students to find employment and to establish their careers or to complete graduate studies before beginning to repay their loans. The guidelines and loan application are attached to this email and also available at go.asme.org/loans.

The major points of this loan program are:

1. Maximum of loan amount of \$5,000 per student
2. Available to ASME Members or Student Members who are US citizens or permanent residents majoring in Mechanical Engineering or a closely related program
3. Loan interest at 4% on the outstanding loan principal
4. Loan interest does not begin accumulating until the first of the month immediately following graduation, change or termination of student status
5. Loan plus accrued interest is to be paid in thirty-six (36) equal consecutive monthly payments commencing within six (6) months after graduation. There is no penalty for early repayment.
6. Students must be an ASME Member or Student Member in good standing for at least one year and until the loan is paid in full.
7. Student must be enrolled in full-time academic studies in the U.S and making satisfactory progress in his or her degree program
8. Have a minimum GPA of:
 - 2.20 on a 0 to 4.00 scale - (Undergraduate Students)
 - 3.20 on a 0 to 4.00 scale - (Graduate Students)
9. Student must have a demonstrated financial need and have a written letter of recommendation from the Chair of the Department, the Dean of Engineering, or Faculty Advisor of ASME Student Section.
10. A one time graduate education extension may be awarded to qualified students.

Please inform all students in your programs who you feel qualify for these loans to submit an application, or to request additional information.

Ed Seiders

ASME Auxiliary Student Loan Treasurer

email: seiderse@asme.org

Engineering Center STEM Outreach Opportunity

Dear Members,

The Engineering Center of St. Louis respectfully requests your support and participation in creating outreach into regional schools encouraging local students to pursue an education in high-demand STEM fields. The STEM Alliance has launched the STEM Alliance Speakers' & Mentors' Bureau with the mission to connect professionals into classrooms to inspire and encourage the next generation to continue taking steps along STEM pathways. It will provide valuable links to mentoring, scholarship opportunities, university connections, and eventually careers. Encouraging local students to follow STEM pathways in education will help to fill the STEM talent pipeline that is critically needed for the region to continue to grow and create prosperity for St. Louis. This is a call for volunteers to participate in the bureau. Please consider completing the attached application and forwarding it to joy.david@engineeringcenter.org. Thank you for your consideration and support to this much-needed community outreach program. Please feel free to forward the application to members, colleagues, and other STEM professionals you feel would be a valuable asset to this program.

Sincerely,
W. Dave Yates,
PE President

Young Engineer and Student Section Website Offer

The St. Louis Section is offering any regional student section and young engineers monthly feature on our website. Your page will be complete with Google Calendar, Blogger and interests information in an effort to help the student sections and professionals entering the workforce, to keep organized even when they may lack the resources. If you know of a student member that would be interested, please have them contact us at askestlouis@gmail.com.

Job Offers

Southern Illinois University - Edwardsville

<http://www.siu.edu/employment/employmentopportunities/engineering/FY17-072.shtml#instructor-lab-manager>

Engineering Center Phase 1 Completion

ENGINEERING CENTER RIBBON CUTTING

Highlights - July 13th, 2017

The Engineering Center of St. Louis celebrated the completion of Phase 1 of a historic Capital Improvements Program. With construction work by United Construction, the first phase of the project converted the building's auditorium into a technologically advanced meeting space. The renovation project, designed by REMIGER DESIGN, seeks to give the center a new face for the engineering profession in St. Louis and creates a flexible and modern environment that will be used by the Center to collaborate with its affiliated organizations, partner with local schools and businesses and encourage greater student development in science, technology, engineering and math (STEM).

ASME Section Contributions

In past years, the St. Louis Section has covered section activities by receiving an allocation of funds from ASME National. This allocation was based on how active the section was and what types of events were hosted by the section (i.e. offering professional development and holding joint meetings with other engineering groups). Since 2014 year, ASME National has stopped contributing to the local sections and instituted regulations on how sections can spend their money. The section is now using money that was saved from past conferences held in St. Louis and contributions from members.

When completing your ASME renewal, please consider contributing to the St. Louis Section. This will help to sustain the group that has survived since 1909 and is run entirely by volunteers in the St. Louis area. You can contribute by completing the voluntary contribution for sections on the ASME renewal form.

We are also looking into the potential to utilize relevant sponsorships to help alleviate the continuing costs as well.

St. Louis Section Events and Links

The St. Louis Section is continuously looking for new events and activities to offer members. This includes tours and presentations.

If you have ideas or would be interested in being an event captain please contact any of the officers on the next page.

ASME Referral Drive & ASME Special Offer

From ASME:

“

As a valued ASME Section Member, we are requesting your assistance to help us spread the word to non-members about two exceptional opportunities we have for them to join ASME:

1. The ASME Referral Drive: Current members can simply provide us with the names and email addresses of their non-member peers and colleagues and we do the rest! The prospective member will receive a special discount offer to join ASME including a free gift, and the referring member may also be eligible to earn great prizes when they do. Please encourage your section members to make their referrals today at: <http://go.asme.org/ReferralDrive>

- and -

2. The ASME Join Today Special Offer: Members can also share the ASME Join Today Special Offer URL directly with friends and co-workers by: email; placing it on their university or company intranet; posting it to their favorite social networks such as Facebook, Twitter, Google+ and LinkedIn, or however they wish! Joiners will enjoy a special dues discount plus a free gift. Please urge your section members to post this special offer URL in as many appropriate venues as they can: <http://go.asme.org/JoinToday>

We rely heavily on your ongoing support to introduce ASME Membership to as many prospective members as possible, and we thank you in advance for your help in spreading the word about these very special membership opportunities - each of which include a generous **25% dues discount** plus a **free ASME bag** for new members!

”

Two Great Ways
to **Help ASME**
Grow Membership!

Next Board Meeting

Please join us at the next Board Meeting on **Wednesday, October 11th @ 5:45pm**

Location: CJ Muggs Bar & Grill, 101 W. Lockwood, Webster Groves, Missouri 63119
Restaurant contact: (314) 963-1976 CJ Muggs Webster Groves; <http://www.cjmuggs.com>
Please contact any of the board members for more details.
